ISOC OMAC Update

Scott Mansfield
Russ White
Izumi Okutani
Joint Policy Action Team (JPAT)

- Areas of interest identified
  - WSIS+10: Draft positive messaging, moved to other activities
  - Security: Pervasive Encryption
JPAT - Pervasive Encryption

• Lead by Christine Runnegar
• Face to face meetings organized, the lastest @IETF93 Prague
  • 19 participants (10 OMAC members), not including the Board, ISOC staff
• What are the paths toward mutually acceptable solutions for legitimate privacy, public safety and law enforcement needs
• Categorization of issues
  • Identify needs of encryption users, encryption “subverters”
• Coming actions
  • Matrix → Document
  • Outreach JPAT members on the coming workshop on encryption and law enforcement at the IGF
  • Any way to facilitate online discussions?
IPR Issues in Open Source

• As an observation from Scott Mansfield, many OMAC members are concerned about many IPR issues associated with Open Source
• There are many industry groups going through discussions on this topic as well
• Many aspects
  • Use of Open Source Software
  • Derivatives of Open Source Software
  • Contributions to Open Source Repositories
• Intellectual Property
  • Who owns the IP?
  • How are patents disclosed?
  • Licensing details
Brainstorm: What the ISOC Board Could Do?

• Provide overview on what work is underway in the Industry
  • ITU-T Ad Hoc on IPR
  • MEF Bylaws
  • BBF Bylaws
  • IEEE Bylaws
  • Open Source Organizations
    • ODL, OpenStack, Linux Foundation, others

• Provide overview of what the IETF is doing in this space
  • Hackathon involvement
  • Proof of Concept development
  • YANG and JSON modeling

• Establish a statement (or best practices) around Intellectual Property related to open source software
Engagement Opportunities for OMAC

• IETF: Prague (July 2015), Yokohama (Nov 2015)
  • Pervasive Encryption and other topics

• ICANN: Buenos Aires (June 2015), Dublin (Oct 2015)
  • WSIS+10

• IGF: Joao Pessoa (Nov 2015)
  • WSIS + 10
OMAC Engagement

- Extended engagement to policy people
  - More engagement points at policy related venues
  - Traction observed – how do we effectively lead to fruitful discussions/outcomes
  - JPAT → Consideration for Future: Feedback based on options, assign a leader + staff

- Differentiate per type of meeting
  - Topics relevant to the meeting venue
  - Technical, Policy, Social

- Differentiate per objective
  - Technical or Policy
  - Understand perspectives or Discussions towards a common direction

- Individual engagement per group, same theme → general engagement
Upcoming Meetings during IETF94

• ISOC/ISOC-JP/WIDE/IGCJ Event: 1\textsuperscript{st} Nov 15:00 - 17:00 Room 511
  • Organised by Prof. Hiroshi Esaki
  • Japanese community + OMAC invited
    • Internet policy and governance (by Sally Wentworth)
    • Collaborative security (by Olaf Kolkman)
    • IGCJ(Internet Governance Conference Japan)
    • Security issue (by Prof.Shinoda, NISC/WIDE Project)

• OMAC: 3\textsuperscript{rd} Nov 11:30 - 13:00 Room 414-415
  • Pervasive Encryption
  • Governance issues around connectivity
  • PIR Board Nomination, OMAC Co-Chairs Election
