Summary of Agreed Board Action Items

At a planning retreat held in January 2014, the Internet Society Board of Trustees decided that:

1.) ISOC exists to advance the deployment and evolution of a global, open and trusted Internet available to everyone on the earth;
2.) ISOC is a global, trusted, authoritative leader that gets things done; and
3.) ISOC should focus on three strategic priorities:

I. Maintain and strengthen multi-stakeholder processes for advancing global and local Internet Governance;
II. Advance core infrastructure and evolution of Internet technology; and
III. Promote the robustness and resiliency of Internet security through technical standards and deployment.

The Board’s decisions and priorities set the Internet Society on a refocused path to meet challenges facing the Internet and ISOC in the years ahead. Staff presented the Board with a revised 2014 work plan and, subsequently, a 2015 Action Plan and Budget which was approved by the Board.
