Call for Nominations to the PIR Board of Directors

Internet Society Call for Nominations for the Board of Directors of the Public Interest Registry
The Internet Society is now accepting nominations for the Board of Directors of the Public Interest Registry (PIR). PIR’s business is to manage the international registry of .org, .ngo, and .ong domain names, as well as associated Internationalized Domain Names (IDNs), and the new OnGood business.

In 2016 there are **three** positions opening on the PIR Board. Directors will serve a 3-year term that begins mid-year 2016 and expires mid-year 2019.

About Public Interest Registry
For more information about PIR, please see [https://pir.org/about-us/](https://pir.org/about-us/).

Desired Qualities and Experience for Candidates
PIR is a non-profit domain name registry, set up under U.S. law. Prior Board experience is preferred. All Directors must be able to read and understand a balance sheet, as well as read and communicate effectively in the English language.

General Qualities for PIR Board Service:
1. Very strong business acumen;
2. Good understanding of the functioning of the Internet and the associated technologies;
3. Demonstrated abilities as a long-term, strategic thinker;
4. High ethical standards and integrity;
5. Well developed collaboration and consensus-building skills;
6. Strong communication skills;
7. Will bring passion and energy to the role.

Specific Skills, Competencies, and Experience Sought:
1. Very strong financial acumen;
2. Familiarity with U.S. Tax law under which PIR operates, especially as it pertains to the 501(c)3 status for non-profits (this is in no way intended to restrict candidates to those from the U.S.);
3. Experience with startups and/or the funding and support of new ventures, since some of PIR’s efforts are new venture-oriented;
4. Experience finding efficiencies and growth in stable markets;
5. Good understanding of and experience with Non-Governmental Organizations (NGOs);
6. Experience and careers outside of the traditional ICANN area, which could help provide more outside/independent viewpoints for the PIR Board;
7. Demonstrated experience with technological aspects of the Internet and more specifically the DNS;
8. Technical experience outside of but relevant to the domain name industry, such as with email, web hosting, cloud services, or other broader online service delivery.

We expect all candidates to be able to fulfill the general qualities criteria, and to have outstanding strengths in at least one of the specific criteria. Gender balance, geographic, cultural, and other forms of diversity are also key considerations. In addition, we will explore any potential conflicts of interest that may exclude some nominees.

Time Commitment
The time commitment expected of Board members is significant, including approximately 15 full
Call for Nominations to the PIR Board of Directors

days per year for face-to-face meetings (not including travel time), regular conference calls (generally monthly), and daily email correspondence. Meetings will be held via teleconference, videoconference, and in person.

Board meetings typically include:
1. **Board Meetings**: three to five per year, of one and a half days in length plus travel time. Approximately two of these will be held in the USA and the other two or three are generally co-located with ICANN meetings that occur around the world.
2. **Strategic Planning Retreat**: one per year, generally three days plus travel time, and these can be anywhere in the world. *Board participation in these meetings is optional.*
3. **PIR Advisory Council Meeting**: one per year, generally three days plus travel time, and these can be anywhere in the world.
4. **Conference calls**: as needed, nominally monthly.
5. **Email correspondence**: daily.

Because the board is intentionally small, it is important that nominees seriously consider their potential role as a Director and the time commitment that this entails. In addition, some leadership roles and committees will require more time. For example, there are five elected officer positions: Chair, Vice-Chair, Treasurer, Secretary, and Assistant Secretary (currently filled by someone that is not a Director), and there are numerous committees.

**Reimbursement of Travel Costs**
Reasonable travel costs, in accordance with PIR's travel and expense policies, are reimbursable.

**Compensation of Directors**
Directors that participate in all meetings are eligible to accept compensation up to USD $12,000 per year, paid quarterly in arrears, as compensation for their services as a Director. Compensation for Board service is not guaranteed and can be amended/abolished at any time, at the discretion of the PIR Board’s Compensation Committee. Directors may of course decline to receive compensation if they wish.

**How to Nominate Yourself**
Interested candidates should submit [this form.](#) The deadline for application is 23:00 UTC on [November 30, 2015.](#)

**How the Selection Process Works**
The Internet Society Board of Trustees selects new PIR Directors from the pool of nominees. This is expected to occur by March 21, 2016, and all candidates will be contacted as appropriate once the selection process is complete.

**In This Solicitation - Please Take Note**
We are seeking nominations for the PIR Board, not the Internet Society Board. In addition, the PIR Board is dedicated to the successful and continued operation of PIR's business, and is not a policy-based or mission-based organization in the manner of the Internet Society.
